DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1, 3, 4, 7, 9, 11 and 14 are rejected under 35 U.S.C. 102(a) as being anticipated by "New Pelletizer Makes Higher-Value Fuel From Resid," Oil & Gas Journal, April 17, 2000.

As seen in Fig. 1 of the reference hot asphaltene is fed through a conduit to a pellet producing means, collected with water in a reservoir and transported to a dewatering station.

Allowable Subject Matter

3. Claims 5, 6, 10, 12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. The following is a statement of reasons for the indication of allowable subject matter: The prior art does not suggest in this type of process and apparatus using a fluid medium to produce the pellets or a pump to transport the slurry.
